Patent Design Heating dissipation structure

Unique fan inside design
to speed up the cooling
progress, easy to replace

Schematic diagram
of removing the fan

① Unscrew the screws
that hold the fan

② Fan is automatically
ejected

③ Direct extraction fan
to replace a new one

Taiwan magnetic levitation motor fan

Taiwan magnetic levitation fan,
high speed, low noise, 40000
hours guarantee

Innovative connection quality assurance

Innovation straight pin
connection, safer and more
reliable than traditional way
